WORLD HEALTH CHART

This graph is like a world map for health and wealth. North and South mean healthy and sick, East and West mean rich and poor. The bubbles show each country's average lifespan and income in 2025. Try to find your country to see who the neighboring countries are with similar health and wealth.

COLOR SHOWS REGION

SIZE SHOWS POPULATION

The world is always changing, for the latest version of this graph and to see the amazing improvements all countries have made over the last 200 years, use our free online tools here:

gapm.io/whc

SOURCES - INCOME: World Bank's GDP per capita, PPP (2021 international \$) extended to 2025 with IMF's projections. X-axis uses log-scale to make a doubling income show the same distance on all levels.

POPULATION and LIFE EXPECTANCY: Data from IHME extended to 2025 with UN Population Prospects 2024.
